HIGHLANDS AND ISLANDS ENTERPRISE

PUBLIC SERVICES REFORM (SCOTLAND) ACT 2010: STATEMENT FOR 2022/23

Under the Public Services Reform (Scotland) Act 2010, we have, along with other public bodies in Scotland, a duty to publish annual public statements relating to our expenditure in the following areas:

- Public relations
- Overseas travel
- Hospitality and entertainment
- External consultancy

In addition, the Act requires public bodies to publish details on:

- Payments with a value in excess of £25,000
- Employees/members who receive remuneration in excess of £150,000.

Furthermore, the Act requires public bodies to publish a statement of the steps it has taken during that financial year to:

- Promote and increase sustainable growth through the exercise of its functions.
- Improve efficiency, effectiveness and economy in the exercise of its functions.

Our statement covering the financial year 2022/23 is set out below and includes costs relating to Wave Energy Scotland, which was established as a subsidiary of Highlands and Islands Enterprise in December 2014, Cairngorm Mountain (Scotland) Limited, which was established as a subsidiary of Highlands and Islands Enterprise in December 2018 and Orkney Research and Innovation Campus, which is a joint venture with Orkney Islands Council.

Sustainable Growth

HIE's new Strategy 2023-2028 launched in August 2023. It sets out a new vision, purpose, strategic objectives, actions and key outcomes we seek to deliver across the region, and places the just transition to net zero as a core cross-cutting theme. Our new vision for the region also emphasises the importance of sustainable growth: "The Highlands and Islands is a leading net zero region with a dynamic wellbeing economy, which benefits its growing population and makes a valued contribution to Scotland."

Our purpose is to build and sustain a greener, fairer and more resilient region that benefits everyone with key outcomes of:

- A more balanced population and growing skilled workforce
- An increase in average wages
- An increase in economic and community benefit from the transition to net zero
- An increase in productivity and innovation

We are delivering through focusing on our four pillars: **People, Place, Planet, Prosperity** with cross-cutting themes of **net zero, fair and inclusive growth, and regional transformational opportunities** running through our framework. These represent key strategic drivers in terms of what is delivered and how.

Once-in-a-generation opportunities extend across the region and we are at the forefront of sectors vital to transforming Scotland's economy such as energy, life sciences and space. More traditional sectors such as tourism, food and drink and creative industries have significant potential to innovate, evolve and grow ensuring their long-term contribution to the regional economy. Capitalising on these opportunities will be vital to our ambition to deliver for each and every part of our region.

We will tackle poverty, inequalities and inclusive growth through growing a wellbeing economy and accelerating community wealth building. Community wealth building can drive new business models and create new opportunities for increasing community benefit. Retaining and attracting young people to the region through investing in these opportunities, supporting young entrepreneurs, graduate placements and working with partners to deliver population initiatives is key.

We recognise that businesses and communities are still impacted by the lingering effects of the pandemic, Brexit and cost increases. Transitioning to net zero, fair work and innovation will be key to building resilience and sustainability.

Infrastructure such as housing, transport, education and digital alongside planning and delivering skills and training will be critical areas of partnership working to achieve the ambitions and address the challenges and opportunities set out in our strategy. These can only be accomplished through collaborative working, involving partnership with government and across the private, public and third sectors.

Find out more in our new strategy.

Efficiency, Effectiveness and Economy

HIE is constantly engaged in identifying opportunities to increase efficiency, lower costs and improve service quality. In ensuring Block B (HIE's management and administration budget) remains on target, costs must be contained, and inflation absorbed.

HIE actively looks to make the best use of space available in its offices, however the hybrid working model adopted by many organisations since the Covid pandemic has reduced the demand for office space. Despite this, during 2022/23, HIE accommodated an NHS Highland Project Team for a period of 11 months in space within An Lòchran, saving the NHS team what would have been a higher cost of hiring portacabins.

Additionally, from September the Scottish Land Commission commenced a re-location to An Lòchran, initially taking 10 desks giving HIE further income towards the cost of the running of the building.

Work continues to progress plans for various lease events in early 2025 with further expected rationalisation of space generating savings on base costs of staff accommodation and the pursuit of other co-location opportunities where space and demand allows.

Working practices normalised during 2022/23 following 2 years of Covid restrictions meaning that staff were able to travel more freely. Travel costs were maintained to £300k (c. 50% of pre covid levels) as staff continue to adopt the practice of virtual meetings where practical.

HIE have committed to stringent vacancy and recruitment management and continue to generate recyclable savings through lower staff replacement costs and the regrading of posts. These savings not only contribute to the costs of HIE's pay award but also help to free up capacity to bring in different skill sets and capability to deliver HIE's strategic plan.

HIE is actively putting contracts in place to ensure best value, clear service level agreements (SLAs) and improved quality. Where possible central frameworks are utilised to save duplication of effort and achieve best value.

Aligned to the HIE Strategy 2023-28 and Best Value characteristics, we have in place a single business transformation plan to improve and monitor organisational efficiency and effectiveness.
